Microsoft Azure portal interface showing the 'coffeereviews' container. The left sidebar includes 'Overview', 'Diagnose and solve problems', 'Access Control (IAM)', 'Settings', 'Shared access tokens', 'Access policy', 'Properties', and 'Metadata'. The main content area displays the 'Authentication method' as 'Access key' and the 'Location' as 'coffeereviews'. A search bar is present with the text 'Search blobs by prefix (case-sensitive)'. Below this, a table lists the contents of the container:

Microsoft Azure portal interface showing the 'coffeereviews' container. The left sidebar is the same as the first image. The main content area displays the 'Change access level' dialog box. The dialog box has a title 'Change access level' and a subtitle 'Change the access level of container 'coffeereviews''. It contains a dropdown menu for 'Anonymous access level' with the selected option 'Container (anonymous read access for containers and blobs)'. There are 'OK' and 'Cancel' buttons. Below the dialog box, the same table of blobs is visible:
